

Vote Redistribution

Name:	Vote Redistribution
ID	USC_011
Description	After the instant runoff system is run, the candidate with the fewest number of votes is eliminated from the polls, and its votes are handed over to the next choice.
Actors	Programmers and testers
Organizational Benefits	Minimize human efforts and speed up the voting process
Frequency of Use	<p>If the program runs with no errors, it will be used multiple times throughout the year during various elections. This is as often as the instant runoff voting system is indicated</p> <p>It will be run multiple times by testers and programmers.</p>
Triggers	There is no majority after each round
Preconditions	No candidate receives a majority
Postconditions	The candidate with the lowest number of votes is removed, and the votes are transferred to the second choice.
Main Course	<ol style="list-style-type: none">1. System takes votes from the candidate with the lowest number, and adds them to the second choice2. System removes the candidate with the least votes
Alternate Course	
Exceptions
